PROJECT DETAILS

- I. **Poll system** : we have created a platform for everyone where each person can give their opinion and can also know opinion and also know opinion of others on the same topic in that way people can express their feeling to each other and to each other they can build a happy community (using javascript , html,css,mysql)
- II. **Furniture online shopping** : Online shopping is a form of electronic commerce which allows consumers to directly buy goods or services from a seller over the Internet using a web browser. When an online store is set up to enable businesses to buy from other businesses, the process is called business-to-business (B2B) online shopping. We provide online shopping of different wooden temples and accessories of God like all furniture item.
